

MIRROR, MIRROR ON THE WALL...

NOTHING IS STRONGER THAN SIKAFLEX®-124 MIRROR GRIP FOR BONDING MIRRORS VERTICALLY IN PLACE.

If your project calls for installing mirrors, you won't find an adhesive with better green strength than Sikaflex®-124 Mirror Grip. Our one-component, moisture-cure, instant grip, low VOC polyurethane adhesive can be used in most applications, providing excellent adhesion on most interior substrates. To meet your needs, it can be built out up to one inch and can be used directly on Category II safety film. And, because it's polyurethane, you won't experience the unpleasant odor associated with most other mirror adhesives. Use less, do more with Sikaflex®-124 Mirror Grip. ***It's the strongest of them all.***
